# KEY FEATURES

## Concealed Hinge

- Door hinges are hidden within the door and do not extend above the top of the door for a cleaner, more refined appearance, plus enabling the refrigerator to fit tighter within cabinetry

## High Efficiency Carbon Filters

- Elica's advanced carbon filters remove odors and other gaseous pollutants from the air, ensuring fresh and pure environment

## EPC Convection Cooling

- Sensors deliver precise and consistent temperature and humidity evenly throughout the entire compartments so that all stored bottles are preserved under the same conditions

## Quiet Operation

- Elica offers an Embraco speed-controlled motor, reducing exterior sound levels, while offering high ventilation performance to keep consistent interior temperature and dampening any possible vibration that could disturb the preservation of wine or beverages
