DBI675THXXLS	Tubular Handle	XXL
DFI675XXL	Fully Integrated	XXL

Construction & Performance

- 17 place settings
- 40 dB(A)
- ENERGY STAR most efficient
- 9 Spray Zones including 2 Power Zones™
- 8 Steel™
- Aqua Safe™
- Super Cleaning System+™
- Turbo Drying™
- Sabbath mode
- Exclusive racks with middle basket and height adjustable upper basket
- Status Light™
- 4 LED interior lights
- Auto wash program

Super Cleaning System™

- Our Super Cleaning System™ (SCS+) will save you time, electricity, water and effort
- This patented system cleans the fine filter and all the interior surfaces after pre-wash so the main wash starts with rinsed dishes, a clean machine, an empty filter and fresh, clean water
- Improves washing performance and the machine's longevity

Turbo Drying™

- Get every load completely dry
- After the final rinse, the moist air inside the dishwasher is mixed with the dry air outside of the dishwasher which dries dishes, glassware, and cutlery completely

World Class Loading Capacity

- Flexi Racks™ system - One of the market's largest and most flexible basket systems
- Height adjustable upper baskets and removable cutlery baskets
- Pins, dividers, and holders to secure dishes and glassware of all sizes

Beautiful, Timeless and Elegant

- Our current 30, 40, and 50 series dishwashers have earned the Most Efficient energy label
- Equipped with reliable, brushless motors, making the engine quieter, down to 40dB(A)
- Enhance your favorite dishwashing program with modes that reduce cycle time, noise, water consumption, and energy consumption

8 Steel™

- No other material lasts as long as steel. And no other dishwashers have as many details made from steel instead of plastic
- In fact, eight of the most important components in our dishwashers are made of high-quality steel rather than plastic

9 Spray™

- ASKO's spray system consists of up to 9 highly effective spray zones which ensure that the whole load gets totally clean
- The two Power Zones™ are located under the lower rack, making the washing performance perfect even for the dirtiest pots and pans

The XXL dishwasher has the largest loading height versus all competitors, which allows the upper rack to better accommodate long stemware and tall bottles.
