*Products may be installed within surrounding cabinetry if adequate ventilation and cooling of the installation location are provided

Technology Meets Tradition

- Use the cabinet's built-in camera to scan your bottle- to log them into your inventory, tracking what you have- even tell you where on the shelves the bottle is

- Log your wine collection in the ConectLife companion app, and you will receive expert advice about how to store it- and when it's ready to be opened

- The Wine Climate Cabinet's companion app is connected to the Vivino database-allowing you to log and keep track of your collection

Perfect Conditions

- Optimal storage of wine with vibration-free compressors, controllable temperature zones, pure, activated charcoal-filtered air, and optimum light conditions

- Fully connected cabinet will notify you if anything goes wrong and even when the wine is ready to be opened

- Humidity levels maintained at around 70% – an optimum level for wine storage - easily monitored on the display or the app

- No harmful light- UV protection filter in the door glass protecting your collection from damage

- Three discrete zones, perfectly sealed off from one another, let you choose whether you want to store and age your wines or bring them to serving temperature

Functional Elegance

- Equipped with a solid extendable shelving system, made from wood, that provides a very safe and easily-accessible base on which your collection can rest

- Dimmable light system and elegant, understated Scandinavian design of the cabinet harmonize perfectly with its surroundings
