

WHEN SELLING A MACHINE

- 1 REVIEW CLEANING...**
 Make sure to review with the customer the need to clean the machine regularly. Nugget Ice machines must be cleaned every 4 to 6 months.
- 2 HIGHLY RECOMMEND FILTER...**
 Highly Recommend that the customer install a Filter Head and a Scale Filter (preferably the Large Filter)
- 3 WITH A FILTER...**
 The Scale Filter does not eliminate the need to clean, it increases the time needed between cleanings
- 4 FILTER DOES NOT REPLACE...**
 This Scale Filter does not replace the Internal Water Filter in the 3 Class which is designed to remove other contaminants

CLEANING KIT <small>FREE when product is registered</small>	LARGE FILTER	FILTER HEAD
