FEATURES

- Patent-pending heavy-duty cast-iron grates provide a continuous uninterrupted and maximized cooking surface for best in class coverage. In combination with brass sealed burner and burner bowl, designed to optimize combustion efficiency to produce top cooking performance, including the fastest time-to-boil.
- High-performance dual-flow burner system allows for significant turndown capability from high BTU performance (23,000 BTUs front burners) to low continuous simmer (500 BTUs all burners).
- Exclusive raised pattern burner cap design that is easy to remove and clean.
- Robust electronic ignition/re-ignition capability to provide safety and proper gas ignition. Igniter will continue to spark until the burner flame is established and re-ignite in the case of flame blow out.
- Exclusive PureVection™ technology electronically controls multiple heating elements and convection systems to optimize baking, broiling, roasting, convection baking and self cleaning processes. Achieved by alternating and adjusting the levels of heat and air circulation needed to produce the best result.
- Patent-pending MarquiseDisplay™ touch control oven display is discreetly and conveniently located in Marquise Accented™ oven door handle. Time, modes and temperature are elegantly displayed.

FEATURES

- Patent-pending CircuFlame™ sealed center power burner delivers 30,000 BTUs and the fastest boil time. The most powerful residential burner available.
- Simmer flame precision setting maintains a continuous gentle flame as low as 500 BTUs – perfect for delicate sauces.
- Patent-pending MarquiseDisplay™ delivers a chef-friendly digital display elegantly embedded in the oven handle, and Backlit Knobs.
- Nine high-performance oven modes: True Convection, Bake, Convection Bake, Roast, Convection Roast, Broil, Convection Broil, Proof and Self Clean and Standard Meat Probe.
- Soft-close oven door eliminates soufflé-crashing slams and ensures that the door closes fully to secure heat inside with counterbalanced assisted closing.
- Three full-extension, telescopic professional oven racks with six-position rack supports glide easily and offer convenient access.
- Backlit patent-pending knobs enhance both visibility and style.

SMART INDUCTION COOKTOPS

Hestan's powerful, responsive and efficient Smart Induction Cooktop transforms your home cooking experience with an exceptional heat source. Embedded Hestan Cue™ Smart Cooking technology delivers even more remarkable control. When paired with Bluetooth-enabled cookware and the app, the smart induction burner maintains the perfect temperature as chef-guided videos walk you through each step and technique of our carefully developed recipes.

KICS36-BK

FEATURES

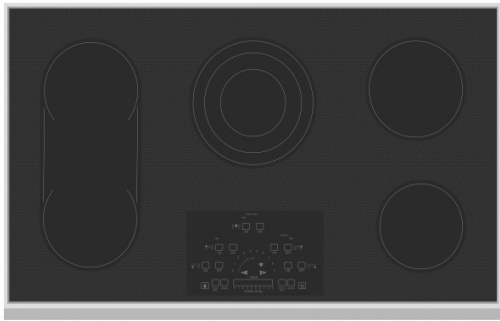

- Hestan Smart technology creates a seamless cooking experience, allowing the induction burner, smart sensor and recipe app to work in unison with you.
- Bluetooth technology and embedded culinary sensors automatically control cooking temperature as you proceed through recipes.
- Video-guided recipes walk you through each step and technique for every recipe in the library.
- Cook with precise temperature without a recipe using the Control Mode feature on the app.
- Precision induction elements deliver immediately responsive temperature control to provide consistent cooking results.
- Induction power generates exceptionally high heat with greater energy efficiency and safety.
- Low simmer allows for gentle cooking for even the most delicate of sauces.
- Easy to use slide touch controls offer smooth, intuitive and precise power control.
- Patent-pending Marquise Accented™ glass adds signature style and a sleek, elegant cooking surface that is easy to clean and maintain.

MICROWAVES - CONVECTION AND DRAWER

KMWC24

FEATURES

- Convenient quick-start controls for popular options, such as reheating, popping popcorn and defrost.
- Convection technology allows for perfect roasting, baking and browning of foods.
- Extra Minute allows for an extra minute of cooking time to be easily added.
- 11 preset cooking options: Reheat, Popcorn, Extra Minute, Auto Broil, Auto Roast, Auto Bake, Slow Cook, Preheat, Convection, Broil, Low & High Mix.
- Precise cook sensor technology automatically adjusts cooking time.
- Child lock safety feature locks the control panel to prevent unwanted use.
- Ceramic turntable allows for even cooking and reheating.
- Interior light illuminates stainless steel interior of microwave.

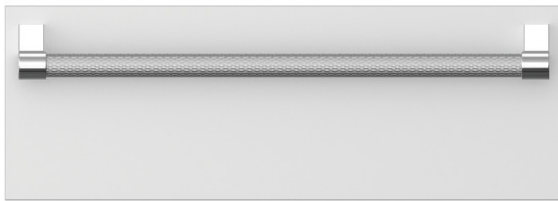

KMWR30

FEATURES

- Sleek, low-profile drawer design allows convenience at an accessible height and saves countertop space.
- Convenient automatic drawer system opens smoothly and features a hands-free close, while the gliding action and solid construction prevents spillover during opening and closing.
- 11 variable power levels and 12 sensor cook, reheat and popcorn settings provide endless cooking options.
- Six defrost auto settings and two reheat auto settings provide convenience at the touch of a button.
- Large capacity drawer can hold a 4 qt. casserole dish or a 20 oz. beverage.
- Keep food warm up to 30 minutes with the warm feature.
- Beverage option reheats coffee and tea to the perfect temperature.

BOTTOM MOUNT REFRIGERATOR

FEATURES

KRBR36

- EvenFlow Air Circulating Technology™ consists of independent ventilation for each compartment, providing uniform and precise temperature control, and ensuring better food preservation.
- Insulated dual variable speed compressor maintains precision temperature control with minimal vibration.
- Patent-pending shelf system offers limitless shelf positions, easily adjustable without removing items.
- Antimicrobial EverCrisp™ drawers prevent growth of microorganisms and cross-contamination with bead-blasted stainless steel.
- Soft-close stainless steel storage drawers and bins allow for silent and easy access.
- Deeper capacity within a standard depth is achieved by a side-mounted evaporator, which leaves greater interior space.
