

# THE NEXT GENERATION HYDROTAP SYSTEM

Powered by our most advanced G5 Technology, the latest HydroTap system continues to dispense filtered boiling, chilled and sparkling with the added benefit of advanced personalized settings and enhanced hygiene. With a HydroTap system it's not just water, it's water at its best.

POWERED BY  
**G5**  
TECHNOLOGY

## MicroPurity™ filtration

Our proprietary, built-in 0.2 micron filter is certified to NSF standards to provide pure-tasting, filtered water.

## Air-cooled system

Our unique air-cooled refrigeration system allows our systems to be 100% water efficient.

## PowerPulse technology

Our innovative Zip Water PowerPulse technology maintains stored boiling water to within 1-2° of your set temperature, meaning no energy or time is wasted waiting for water to boil.

## Auto-diagnostics

An advanced auto-diagnostics system continuously monitors your HydroTap's performance.

## Unique safety features

Our HydroTap systems are designed to deliver boiling water smoothly to minimize splashing. Additionally, our taps include a safety lock that must be activated before dispensing boiling water.

## Smart customization

Our newly optimized menu in the G5 HydroTap command center allows you to select energy modes and usage settings for easier customization.
