Hush Sound Suppression

Powerful Ventilation. Remarkably Quiet. 

Stainless Steel Baffle Filters.
Reduce turbulence
Up to 60% of hood noise begins here.

Heavy-Gauge Steel Construction
Stops vibration before it becomes sound.

Interior Sound Insulation
Moisture-proof acoustic dampening throughout.

Phono absorbent.

Premium All-Metal Blowers
Custom-built by Elica for smoother operation.

Advanced Airflow Optimization
Engineered transitions for low-turbulence movement.

Multi-Stage Quality Checks
Eliminates buzzes and unwanted rattles.

Silence, Built in.

Powerful ventilation. Peaceful kitchen. That's Hush Sound Suppression by Elica.

elica

Hush Sound Suppression

Powerful Ventilation. Remarkably Quiet. 

AIRFLOW OPTIMIZATION

- CAD-engineered internal airflow
- Reduced turbulence and pressure noise
- Multi-stage anti-vibration assembly

STRUCTURAL DESIGN

- 25% thicker stainless steel body
- (.06 vs .08 gauge)
- Minimizes vibration and sound resonance

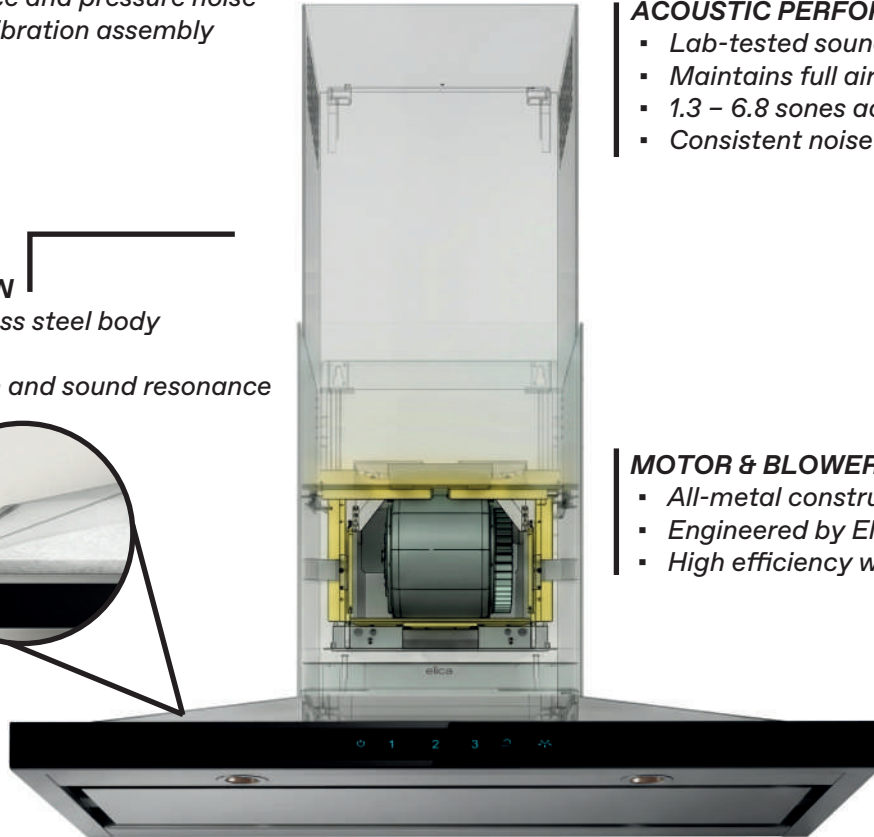

ACOUSTIC PERFORMANCE

- Lab-tested sound reduction: ~3 dBA
- Maintains full airflow performance
- 1.3 – 6.8 sones across speeds
- Consistent noise reduction at all levels

MOTOR & BLOWER

- All-metal construction
- Engineered by Elica
- High efficiency with low noise output

SOUND INSULATION

- Integrated phono-absorbing material
- Covers motor enclosure and canopy interior
- Moisture-resistant

FILTER SYSTEM

- Up to 60% noise reduction contribution
- Construction prevents rattling
- Heavy-gauge no rattling or whistling

Phono absorbent.
