Acid-Proof Stainless Steel

Premium stainless steel container and door ensure durability and hygiene in residential or commercial environments.

High Heater Effect

Powerful heating system — 220V/2.75 kW and 120V/1.4 kW — for faster program times and performance.

Strong Circulation Pump

95W pump with higher flow and integrated heating element for superior cleaning power.

Residential + Commercial Ready

Versatile design makes it suitable for both home kitchens and professional installations.

Certified Hygiene

NSF 184, UL 749, and DIN EN 17735 certification for sanitization standards.

Floor Projection

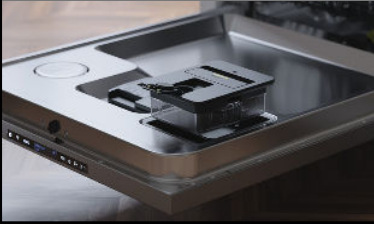

Displays program status, remaining time, temperature, and lock/SANI-lock indication with colored symbols on panel-ready models only. Stainless models show status on the front-facing control panel.

120V / 240V Rewireable Models

Designed for 240V installation; can be converted to 120V with a separate conversion kit (see price sheet for model number).

Built-In Water Softener

Reduces hard-water minerals for spotless results and optimal machine performance.

Tested for 20,000 Cycles

Built to deliver professional-grade longevity and reliability.

Quick Programs

17-minute Quick Program (140°F) and 29-minute Sani Quick Program (185°F) for fast, hygienic results.
